

Smart Earth Services

The Smarter Alternative

We are a national services organization, multi-threaded for one-stop shop service orientation.

Our services appeal to a wide range of clients including builders, developers, aged & young care facility owners, body corporate, building owners, owner builders, renovators, governments and industry. We also provide low cost council certified portable onsite accommodation units for mines, builders, developers, aged and young care extensions, weekend requirements and rural land projects. We customize shipping containers to create up-market accommodation for temporary or full time needs.
